foreign hey guys how are we okay so you're probably wondering why I am doing videos again simple reason is the alliance refuses to give me any reason why I should be silent um and they refuse to tell me anything so until they stop playing games with my life and everybody else's life and get this show on the road then here we are okay I'm not going to be their porn anymore they've already used me enough um and they've used everybody enough so I'm not gonna play their game okay when they start looking after humanity and I know they're at War so before you start jumping up and down in a temper tantrum there oh there well I know that and I know there will be casualties of War but the white hats claim they care for us and they are playing with our lives and forcing us to die and live on the street and eat out of garbage bins and hmm so no I'm not going to play their game not anymore if they can give me a genuine reason an honest true genuine reason then here I am I'm not going to be silenced unless there's a bloody good reason and they will not provide that reason so I'm not going to be silenced simple okay now a few updates since I have been it's only been one week um I have been in the groups I have been watching everything I have been listening to everything I've been watching People's interaction I have been um people have been sending me conversations from other groups um people saying really really nasty stuff it's all good it's

all good now for those people who have ears but refuse to listen except choose to listen to what they want to hear I will give it to you very very briefly again the um the beliefs in regards to the 5D new Earth and the med beds if you have strong religious beliefs and you want to be healed healed treated by the med beds it doesn't matter your beliefs you can be treated no matter what your beliefs are if you want to work with the beds as in seeing patients as in standing next to the machine and pressing all the buttons for a patient to be healed and helping patients in and out of the bed and all of that yes you will need to elevate your Consciousness past indoctrination and limiting mind control tactics which is that's right eliefs now I know there's quite a few people plotting against me and good for them good for them I know um a lot of people a lot it's not just one group there are a lot of groups getting together and planning on um and have already got together and gone into the astral world and connected with Spirit connected with ETS and higher dimensional beings and they come back and they say sky Princess full of it's not true you can have whatever beliefs good for you good for you okay a lot of people will say that just to protect their ego even if Spirit tells them

actually yes guy Prince is telling the truth they'll still deny it okay so just a heads up if you hear all of this um some of these plots are deliberate okay to discredit me ignore them just ignore them I know it's coming people just trying to protect their belief system you know what good on them good on them um if they they come back and say oh you know actually we're wrong and she's right you know even more hats off to them but just be aware that people are doing their very best to discredit me even more thanks to the scammers so um you know it's all good it's all good people want my information about Med beds but you give them more information what's actually required and people turn on you like a pack of wolves it's fun it's fun it just shows who they truly are and where they are at their their level of Spiritual Development it's it's fine whatever each to their own now the spiritual counseling course okay we have over 2 000 people registered for that um well over well well over 2 000 people and we're getting at least 100 every day at the very least 100 every single day and um the website that the alliance is developing is so cool it's really really cool it's all Quantum it's all it's really good really good stuff so that course will be completely free and the official registrations will be emailed um to you guys uh once it's all ready after funding it will be in all languages it will be um in all countries the whole lot but with the spiritual counseling course okay now if you are wanting to work with the med beds or be a dietitian or a physiotherapist if you're wanting to work clinically in the clinical department where which basically is working with patients on any level except the cafeteria or the kitchen or cleaning or gardening okay if you actually want to work one-to-one with patients and face to face then the spiritual counseling course is actually required okay it will be exactly the same for um for everybody okay except the different classes so it doesn't matter what job you're working you will still get the same

spiritual counselor training okay it won't be any different um managers okay if you just want to fund your set funder Center or a project it's not required if you want to manage a center you will be working with higher dimensional beings so this course is actually a requirement now if you uh wanting to be a med bed operator but have not signed up for the spiritual counseling training it will automat you will automatically be placed in that spiritual counselor training that it is the spiritual counselor training is part of the med bed training as well okay so to do med bed training is a lot more than just pressing a few buttons and learning about biology and health okay it is um it's the whole works okay now with this course any of the the training you're either in 100 or you're out it's not part time it is full-time you treat it as your job okay and um if you have a busy life or whatever you need to organize your life you know so that you can attend the classes and the live streams and everything on time okay so that's your responsibility uh what else did I have to tell you guys hmm let's see let's see let's see oh I am creating just on a personal note I am creating a Facebook page and telegram page for athusa Lodge which will be my uh my Center if I'm granted approval for humanitarian funding and that will have all the updates now I will be allowed to document a couple of horses Journey Through the animal healing Chambers and their uh their Journey you know throughout returning to competition and all of that kind of stuff very old aged horses one of them is 28. so that will be there I'll be documenting the building process if it's not already built because there is rumor that some centers are already built it's just a rumor um if mine's not already built then I will document the building process and and all of that I will I do know I will be asked to give a tour of the castle it is a castle that's what I'm planning a castle um a tour and just show people around and mainly for the public to see what you know what is available how it's all going to work and things like that and to show you guys that's doing centers you know give you guys a few ideas so there'll be updates all the time and those updates will be on on YouTube and shared to those two pages um now I haven't created them yet I'm going to create them either this afternoon or tomorrow so I can't give you any links okay but if you're on Facebook um I will share the links on my Facebook page and if you're on Telegram then I will share it on all my my telegram Pages it's only for your updates and and things like that

okay so when the number the phone numbers the national phone numbers come out for the the med beds to be used to be treated for the public um I will probably get those numbers and I will list them in my groups as well okay so make sure you're in the right groups I will list the groups at the at the on the description of this video if you're if you're in a group that is not on that list it means you're in a scam group you need uh pudding me you need to get out of that group okay so um okay no I did not get my nails done I kind of run out of money when I got off that that video that live stream I went and checked my bank account it's like yeah no not today so all good okay so no I did not get my nails done um and lucky because I really did run out of money uh so um so yeah I'll share all the phone numbers when they come out and when they're available and just remembering there has been some controversy so when the funding is available which is not yet we don't know when so please don't ask we don't know when um the beds will be made to public knowledge okay so they'll come to public knowledge about six to eight weeks after funding and then six to eight weeks after uh after public knowledge then they will start treating the most severe people of the public okay so you're looking at three months maybe four months something like that and this is a timeline that allows all the humanitarians and their dependents to be treated okay and then as soon as all there all of them are treated then they start on the public okay so um we're looking at around three to four months alrighty so we just have to wait for funding and when funding comes then it's game on until then we're in a holding pattern just like we're sitting in an airplane waiting for the the airport the runway to be clear and we're sitting there twiddling our thumbs and it's like yeah okay still another day has passed and nothing yeah keep your vibrations High keep manifesting yep still another day another day oh look guess what there's another day another week another month and so on and so on and so on and so on we don't know is politics holding everything up at the moment um they need to get off their asses and release it they really do they really really do and uh yeah not happy but anyway whatever okay or whatever we're losing more and more people every single day that passes and uh nobody seems to care but you know all right so um so yeah there's all the updates um I don't think I had to tell you anything else oh just a reminder if you are in the groups the alliance and those above outside of Earth's atmosphere are watching every single person closely every person everyone who wishes to be a humanitarian go to a Redemption appointment fund a center or work in a center you are being so closely watched every second of every day you are being watched and monitored so Behavior okay walk your talk we don't just love and light while stabbing someone in the back with a chainsaw okay which is happening a lot a lot and then turn around and say oh I'm all full of love no no you actually have to walk your talk if you are full of love then you wouldn't be bashing people behind their back okay remember everybody has a friend in the groups everybody the information gets back to them okay and the alliance is watching everybody and everything so watch your p's and q's okay stop being stupid stop being an a-hole actually walk your talk all right I mean that really because if you think you're you're going into the Redemption appointment to get this beautiful big payout and exchange that you've been an behind people's backs you're going to walk out with very little very very little uh the scammers they have a lot of currency as well they'll be turned around and warped out some of them in handcuffs okay so um just know the money will go to the right people not the the pretend people okay and uh to the real genuine ones um you'll get everything you desire and a lot more so good on you and uh then you're free to go in and do whatever you can and uh and help heal and build not even heal but build the new earth that is what we're doing with the projects is not healing we're building okay so um so yeah just know that everybody every second of the day is being extremely closely monitored and the alliance has tabs on everybody everyone no one gets away with anything okay so um be aware and Big Daddy is watching lots of big daddies are watching and you know so um so yeah all right so uh enjoy have fun and just remember I'm not answering every single question that you pose at me if you can I'm allowing you guys to

to figure it out yourselves and I've asked my my admins to do the same to step back especially in the local groups group okay everybody wants help in setting up your own group uh you're about to be running a major Health and Medical Center if you can't manage to set up your own group on a social media site then you know you're gonna struggle managing a major medical health center so consider this practice okay we can no longer hold your hand while you're expecting to go out there and run major centers with potentially billions of dollars um you'll we have to step back and allow you to figure it out yourself okay we're no longer interfering or being the intermediary between groups that's having issues with each other or people that's got problems with somebody else he said she said this group said that that group did this figure it out yourselves figure it out your adults you're about to walk into abundance where you're going to be working with these people so please don't message us with your your he said she said issues um it's none of our business it's time you took responsibility and uh and looked after yourselves worked it out yourself figure it out yourself actually be the manager that you are planning to be if you can't do it on a social Media Group you've got no way in hell of doing it for real in person so um yeah use this time to to figure it out and work it out yourself okay um I know people are under a lot of stress and need a bit of a helping and and guidance that's fine but we will no longer do it for you and we will no longer be the the middle person between an argument between groups and people that's just not on anymore at this stage of the game you pull your socks up and do it and get on with it or you you know you have no business being involved in something that's going to change the world for the better if you can't even you know resolve an issue with somebody so um if you're not prepared to to do it for real then or you're not prepared to do it on social media then you won't be able to do it in person so use it as practice all right really important okay everybody so um take care have a great day and uh White hats I know you're listening bloody hurry up it's getting real tiring every single person I've spoken to is fed up with it so sick of the games sick of the lies sick of the smoking dagger and they say it's necessary but they also say they have everyone and everything's done so there's no excuses okay get it done so we can start building the new Earth and pick up the pieces that that you you know allowed to to happen so um yeah take care everyone bye
